

# Press Release/News Flash

Doorway and Contemi Solutions AS are joining forces to provide the insurance industry with the best solutions in applications and operations.

From the signing, from the left: Martin Tan, Doorway, Karl Morten Busk, Contemi, Svein Risberget, Contemi, Terje Pfefferkorn, Doorway, Odd Ingvar Helgesen, Doorway and Martin Nyhuus, Contemi.

Doorway enters into an operative agreement with Contemi which supplies total software solutions to the insurance industry. Doorway contributes with many years experience in data centre services and ensures the stable and secure operation of business management systems for Contemi, including support.

"The agreement with Doorway means that we can offer our customers a single point of contact for our application deliveries. The customer now has a single point of contact with us, and it is our responsibility, together with Doorway, to ensure that we deliver our services in accordance with the agreed service level" says Martin Nyhuus CEO of Contemi

"The agreement provides us with an excellent basis from which to support Contemi's deliveries of business-critical solutions to the insurance industry. This is a strategically important area for us, and we can build on our key expertise in IT operations and application management and administration", says Odd Ingvar Helgesen, CEO i Doorway

#### About Doorway:

Today's society imposes ever increasing demands for good and cost effective IT services that are always available.

Doorway supplies innovative, efficient and cost effective IT solutions to our customers, with full support from our customer service centre, which is on standby and ready to assist 24/7/365.

Doorway's business idea is to supply innovative and efficiency-improving IT solutions and we have an extensive support apparatus dedicated to supporting this. Our main data centre is in Arendal, and both adheres to Norwegian legislation governing data security as well as ensuring a stable solution for our customers.

The data centre is operated by a unit consisting of 75 employees who carry out day-to-day tasks in preventive maintenance, error rectification and process monitoring. A dedicated Change Department is responsible for all deliveries and change management while the Customer Service Centre ensures quick responses to all direct queries from our 450 business customers. We also operate a Research and Development Department, distributed between three of our locations; Lillehammer, Arendal and Cape Town.

Doorway's key area of expertise is the operation of business systems with high standards of security, availability and performance. Of equal importance is our focus on delivering services that are typified by good user experiences and a high service level.

#### About Contemi Solutions AS:

Contemi Solutions AS was founded in Norway and the UK in 2001. The company was established by professionals in insurance and IT. The objective was to develop a unique industry expertise with first class IT solutions with the intention of creating a leading software and consulting company.

Contemi currently has more than 100 employees at locations in Norway, the UK and Vietnam. We not only offer a complete core system in insurance, but are also able to supply stand-alone systems with accompanying consulting services to our customers in:

- CRM
- Sales and customer portals
- Data Warehouse and BI
- Mobility and App development
- Hosting and infrastructure operation

With long experience in the supply of integrated solutions, Contemi is the consulting partner of choice for supplying the service areas described in the above.
